The **LEGO** Foundation

**SOCIAL MEDIA TOOLKIT** 

Learning through Play Campaign

### Let's Start Playing!

We want to start with a huge thank you for helping us reach parents around the world to help them experience the power of Learning through Play with their children.

The COVID-19 crisis has left an estimated 1.5 billion children out of their familiar learning environments and at the same time parents are faced with the challenge of working from home and supporting their children to continue learning at home.

The LEGO Foundation and the LEGO Group joined hands to support parents to engage children in Learning through Play activities. On 19 June 2020, we launched the <u>Playlist</u>, a collection of diverse, high-quality and curated Learning through Play activities. The site allows to search for the appropriate play activity depending on age, duration and play materials.

On 22 June 2020, we are launching the first wave of the Learning through Play campaign to reach and engage parents across the world. And we want your support and social media might to ensure that we are not leaving any parent behind.

### **How to Use the Toolkit?**

This toolkit has a collection of assets for Facebook, Instagram and Pinterest. Every post instruction is preceded by a slide with the image of the assets for your quick reference.

Social Media Post Instructions include:

- •The date of publishing on LEGO Foundation channels- you can post the asset after it goes live on the LEGO Foundation Channels
- Copy for the post
- •Call to action- the Playlist website url and some additional call to action for some assets
- Hashtags and social media handles to tag when the assets are posted
- Link to download the assets

N.B: Since we are testing the creative routes in the first wave of the campaign, we have multiple variation in each theme. The variations can be identified by the letter "V" followed by a number, viz. V1, V2 etc., on top right corner of the slides. This will help us to track the performance of the posts.

For questions about the toolkit, please write to Rajdeep at rajdeep.roy.chowdhury@LEGO.com

### **Contents**

- 1. Campaign Creative
- 2. Content and Assets

## Playlist website

Assets will link to the Playlist website, which is part of the Learning through Play campaign by LEGO Foundation.

The website features different activities parents and caregivers can do with their children at home using everyday items.
